Led by charismatic frontwoman Sydney Sierota and rounded out by her brothers Noah (bass) and Graham (drums), the tight-knit siblings had to come to grips with the departure of big brother and guitar player Jamie, who chose to leave the band after the last album in order to spend more time with his wife and son. “We had to find ourselves as a trio instead of a quartet,” admits Noah. Sydney explains, “That literally forced us on a journey of having to discover this sound. We still had electric guitars, but they weren’t the center of the music anymore.” In order to bring that vision to life, the group utilized vintage synths, keys, and drum machines. As a result, the band’s new music is awash in shimmering synths, airy guitars, and heavenly vocals that wouldn’t be out of place blasting from an eighties transistor radio during an episode of *Stranger Things*.

Echosmith first emerged onto the scene in 2013 with their debut album *Talking Dreams*. The (Gold-certified) album produced the triple-platinum hit “Cool Kids,” and platinum-certified “Bright.” The band quickly earned rave reviews from the likes of *ELLE*, *Rolling Stone*, *Teen Vogue*, *Billboard*, *NYLON*, and more for their distinctive melody-minded, New Wave-influenced sound. They have performed on *ELLEN*, *The Tonight Show Starring Jimmy Fallon*, *The Today Show*, *Late Night with Seth Meyers*, *The Late Late Show with James Corden*, *Conan* and others. The Sierotas – Sydney (vocals/keyboard), Noah (vocals/bass), and Graham (drums) – have played to crowds of thousands at festivals and sold-out shows in the U.S. and Europe. The band has even joined Taylor Swift as a special guest on her *1989 Tour* in Philadelphia to perform “Cool Kids.”
